Quarterly Health Bulletin: Neonatal Care, 2024

Latest quarter 2024Q4 · generated 2026-10-14 07:18 · source: DHIS2-like facility-month export, 117 facilities

Figures are provisional. Every quarterly figure shows how many of its three months are in the data. February and December are missing for every facility, and January and March each arrived twice with different numbers. Read the data-quality section before quoting any figure.

Headline numbers, 2024Q4

36,961
Deliveries
2 OF 3 MONTHS

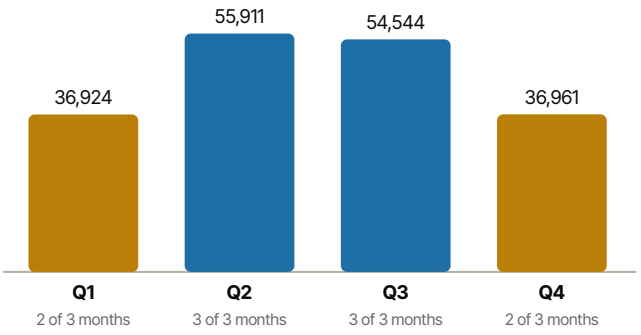

35,918
Live births
2 OF 3 MONTHS

28.2
Stillbirths per 1,000 births
RATE, COMPARABLE

49.9
Neonatal deaths per 1,000 live births (0 to 28 days)
RATE, COMPARABLE

2024Q4 contains 2024-10, 2024-11 only. Counts are not comparable with a full quarter. Rates are comparable but rest on fewer births.

Deliveries and coverage by quarter

Amber bars are quarters missing a month. The fall from Q3 to Q4 is mostly the missing December, not fewer births.

QUARTER	MONTHS IN DATA	COVERAGE	FACILITIES
2024Q1	2024-01, 2024-03	2 of 3 LOW	117
2024Q2	2024-04, 2024-05, 2024-06	3 of 3	117
2024Q3	2024-07, 2024-08, 2024-09	3 of 3	117
2024Q4	2024-10, 2024-11	2 of 3 LOW	117

Coverage is months present out of months expected. Q1 is also provisional because January and March each arrived twice.

2024Q4	36,961	35,918	28.2	36.4	13.5	49.9	14.0	14.8	5.3	2 of 3

NMR is neonatal mortality per 1,000 live births. The stillbirth rate uses live births plus stillbirths as its denominator. ANC visits are not in this export, so no ANC indicator is reported.

Burera Hospital	Burera	83.3	56.0	27.3
Gisagara Health Center 4	Gisagara	83.3	56.0	27.3

The completeness seen in the data is the same for every facility, because the same two months are missing everywhere. Timeliness is not reported: the export does not say when each report was sent.

Facility reporting status

117
Partial

No facility has stopped reporting: every facility reported in the latest month of the export. Every facility is Partial because February is missing for all of them.

Assumptions and gaps

- **Expected months:** 2024-01 to 2024-12, every facility every month.
- **Repeated months:** the first version of each repeated month is used for now. The M&E unit decides the real rule, for example keeping the version the district approved.
- **ANC visits:** not in this export, so they cannot be reported yet.
- **Timeliness:** needs the date each report was sent, which this export does not include.
- **Facility type:** for some facilities the recorded type contradicts the name. Province figures are unaffected; analysis by facility type waits until the facility list is confirmed.
- **Q1:** provisional until the M&E unit confirms which January and March reports are correct.
